

SUMMARY OF OSW BURDEN REDUCTION ESTIMATES

This document summarizes burden reduction estimates for all of OSW's proposed burden reduction ideas that are described in the text of the NODA, in the table entitled "RCRA Hazardous Waste Reporting Requirements," and in the table entitled "Other Burden Reduction Ideas." For each major theme in the NODA and for the "Other Burden Reduction Ideas" table as a whole, the following information is summarized for affected information collections:

- current baseline burden hours;
- estimated burden reductions; and
- percentage reductions in burden from the baseline.

SUMMARY OF OSW BURDEN REDUCTION ESTIMATES

OSW Burden Reduction Ideas	Current Baseline Burden (Hours)	Burden Reduction (Hours)	Percent Reduction from Baseline
Burden Reduction Ideas Summarized in the NODA Themes:			
Increase Electronic Reporting and Recordkeeping	965,131	46,603	5%
Reduce Reporting Requirements for Generators and TSDFs ¹	361,235	32,877	9%
Lengthen Period Between Inspections	271,891	23,822	9%
Eliminate Recordkeeping for RCRA Personnel Training	182,937	182,937	100%
Streamline LDR Paperwork Requirements	2,835,194	2,825,741	99%
Reduce Number of Respondents or Data Collected from Biennial Report	157,729	47,848	30%
Subtotal for Ideas in NODA Themes	4,774,117	3,159,828	66%
Other Burden Reduction Ideas²	261,597	197,876	76%
Total	5,035,714	3,357,704	67%

NOTES

1. See "RCRA Hazardous Waste Reporting Requirements" for the baseline burden associated with this theme.
2. See "Other Burden Reduction Ideas" for additional burden reduction ideas not included in the NODA.
